

PILBARA MITRE 10

ENVIRONMENTAL STATEMENT

The Mitre10 Brand is committed to ensuring its business operations occur with the well-being of our planet, people, and communities in mind.

As a member of the leading independent hardware retailer, Pilbara Mitre10 services the everyday Australian and feel that it is vital to do our part in supporting both current and future generations in building a sustainable, secure, and prosperous future.

To do this we have focused on reducing the environmental impact of our own operations, and to also facilitate the provision of products to enable our customers to make environmentally and socially responsible purchases.

To date Pilbara Mitre10 has adopted several Environmental Sustainability Policies including;

- Reduction to our carbon footprint by installing a 11Kw Solar PV System;
- replacing our 36W Fluoro Globes to 16W Energy Efficient globes in our retail spaces;
- becoming a recycling drop point for used Batteries including car Batteries;
- becoming a recycling drop point for used printer cartridges;
- recycling of all our waist metal products
- stocking of environmentally friendly packaged goods
- stocking of environmentally friendly goods such as battery free torches, solar panel systems and energy efficient light globes
- contributing to the Mitre10 National Disaster Relief fund that provides assistance to fire and flood affected communities with in Australia

Pilbara Mitre10 is committed to continue to adopt policies and procedures to further protect our planet and ensure our products and operations more sustainable for our future generations.
